and SOLID SURFACES**

**FLOORS, WALLS *and*
COUNTERTOPS**

**CLEANING, SEALING,
POLISHING, RESTORATION**

**SOLID SURFACE
COUNTERTOPS**

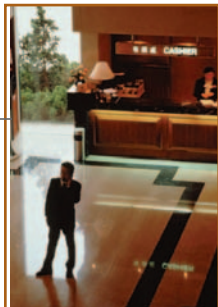

(Corian, Gibraltar, Avonite, etc.)
Countertops and Sinks are restored to your desired finish, including matte or gloss. Our process removes scratches and rejuvenates worn areas to restore the tops to like new condition.

Our procedure is **99% DUST FREE.**

**NATURAL STONE
FLOORS, WALLS, and
COUNTERTOPS**

Whether it is routine polishing, scratch removal or extensive stone restoration, we utilize the most efficient and effective procedures to obtain your desired results.

**GROUT CLEANING
and COLORING**

Our system thoroughly cleans the pores of the grout with a heat process that utilizes chemicals specific to grout coloring. The epoxy based colorant seals your grout lines to ensure long lasting protection against stains, mold and mildew. The results are even colored grout lines that are epoxy tough, while still allowing your floor to “breathe” to avoid tile failure. We are Western New York’s only Aqua Mix authorized contractor.

FLOOR SAFETY SYSTEMS

Our chemical is approved by the National Floor Safety Institute. Our specially designed machine ensures your floors are as safe and clean as they day they were installed. We are the preferred vendor for the largest Fast Food restaurant in the world.

SEALING

We have over 10 different sealers to help you protect your investment. We offer a range of sealers that are neutral in color to ones that will actually enhance the color and richness of your natural stone floor.

We will work with you to determine your desired look and appropriate protection level.

PROBLEM SOLVING

Whether it is grout haze, inconsistent grout color, improperly sealed stone, cracks in natural stone or whatever makes your floor look less than expected, we can help.

SOLID SURFACES

- Corian
- Gibraltar
